

All Business D-Series Double Bay Lectern

The D-Series multimedia double bay lectern features two doors with optional pull out keyboard drawer and angled data panel. This is ideal to house touch screens and power/data points plus much more. The top has been designed so that the data panel and work surface can be made at any angle, allowing for comfortable viewing of monitor displays.

This lectern comes with two adjustable/removable internal shelves, lockable and removable hinged doors and a service panel. The overall height and width of the D-Series lectern is fixed.

Optional extras include: microphone, light fittings, audiovisual rack mount.

Pricing dependent on configuration ordered.

Base price on application.
