

# Podium Lectern POD-4-DS

## Podium Lectern POD-4-DS

Offers Dual Screen Technology For The Ultimate Presentation Experience.

Everything about this lectern is easy – just connect your external device to the input panels for instant integration with IT and audio equipment.

The LED monitor built into the front panel offers embedded digital signage solutions. A second LED monitor is built into the generously sized, inclined benchtop and is invisible from audience members.

Electric height adjustment puts you in control, enabling you to work at your most comfortable position. We've even thought of a cup holder that is conveniently located on the column, to prevent any nasty spills. Heavy-duty castor wheels allow for easy maneuverability and can be locked into place when in use.

## Key Features

Electric height adjustment

Built-in audio-visual capabilities and dual LED monitors

Upper input panel: HDMI, VGA, AUX, GPO plug for charging devices, USB input for front screen, switch for front screen, switch for reading light

Lower input panel: HDMI, VGA, XLR for microphone, power point, optional HDMI input for top screen, optional additional XLR

Branding options

5 Year Warranty

Dispatch Times: This lectern is in stock in a black powder-coated matte finish and can be dispatched within the next 1-3 Business Days from receipt of order. Custom options include a gloss paint finish (column only), timber finish (benchtop and column only) or the color of your choice. Additional costs and 4-6 week dispatch lead time apply for custom options.

## LOGO PANEL

A 22" LED monitor is fully integrated into the front logo panel. Embedded digital signage solutions enables you the flexibility to change what you display to your audience, from various company logos, photos, slide shows, scrolling text and even video playback.

## COLORS AND FINISH

This lectern is available standard in a black powder-coated matte finish.

Custom color and finish options include:

Gloss paint finish for column only

Timber finish for the column and benchtop

Your own color in a matte or gloss powder-coated paint finish

Additional costs and dispatch lead times apply for lecterns with custom options.
